Golf Canada Equipment ID & Retrieval Labels

Ever left a club on the course? Maybe you didn't notice it was missing until the next round. Or maybe you did but couldn't figure out where it was on the course.

By placing Golf Canada Equipment Identification and Retrieval System labels on your clubs or any other piece of equipment (head covers, range finders) you will never have to worry again. If you leave a piece behind, anyone finding it will be able to report it through the online notification system at golfcanada.ca/id. You'll receive an email instantly and be reunited with your equipment.

Golf is a game of integrity – The Golf Canada Equipment Identification & Retrieval system gives your fellow golfers the ability to help you retrieve your precious equipment.

By registering your labels, you will create a Bronze membership, which gives you access to the Golf Canada Score Centre and Score Tracking account. Also included are exclusive offers on event tickets and merchandise, rewards for playing the game and online Rules education access.

Already a Gold member with Golf Ontario & Golf Canada? You will receive a welcome package this spring with your ID labels pre-connected to your account!
